

**CAMPBELLTOWN**  
HOSPITAL REDEVELOPMENT

# MOVE

## WELCOME TO YOUR MOVE NEWSLETTER

With the opening of the new clinical services building on track for May 2022, we're excited to bring you the first edition of our staff newsletter dedicated to preparing you for all things move-related.

MOVE will be your guide to redevelopment and will be supported with a staff only website page on our project website — stay tuned for details.

With move day fast approaching for many of our hospital teams and services, you will find out about all the upcoming changes right here. From move plans, packing procedures and guidelines, and important dates, we can't wait to keep you across all that's to come for Campbelltown Hospital in 2022.

We're extremely excited to show you your new hospital as spaces are finalised, and feel lucky to have such a strong facility team who will help make the big move possible.

## EXECUTIVE ON TOUR

On Monday 14 February, in line with Valentine's Day, the hospital's executive team came on site to fall further in love with the new clinical services building.

Walking through Hospital Street and the future main entrance, our leaders were shown the main spine that will connect all buildings, and will house concierge, security, retail vendors, waiting areas, lift lobbies and more.

Find out more about Hospital Street at our next **RED**talk on Thursday 24 February. The bi-monthly staff presentation will complement the MOVE newsletter to give you the redevelopment rundown.

**Click here** to register now and send any questions you'd like answered in session to [SWSLHD-CampbelltownHospitalRedevelopment@health.nsw.gov.au](mailto:SWSLHD-CampbelltownHospitalRedevelopment@health.nsw.gov.au).

## CURRENT STATE

### A BIG CHANGE

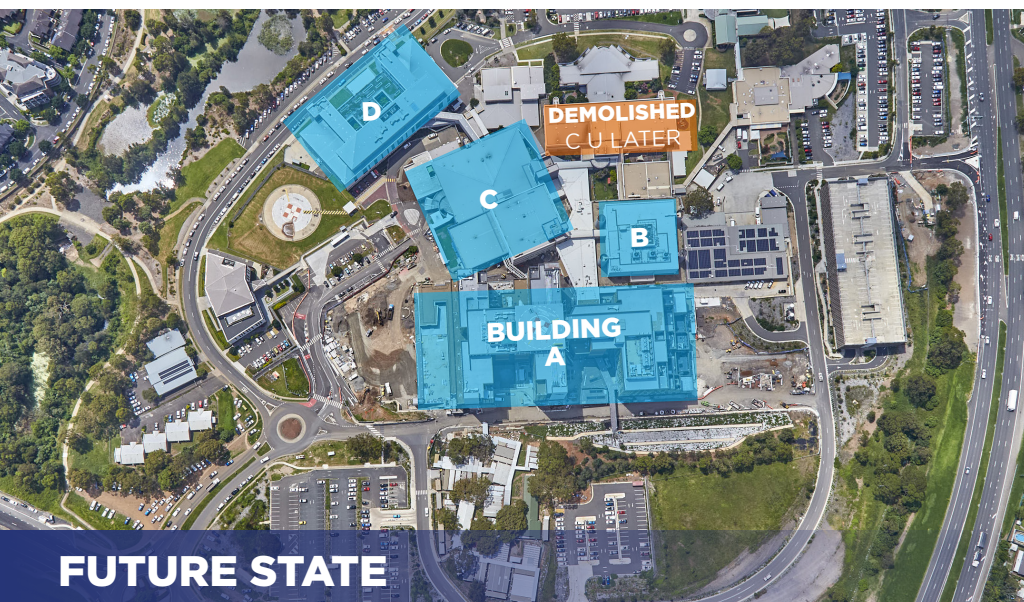

We know you already know that A BIG CHANGE is coming, but are you aware that this also means the building names will change too?

The name change will help simplify wayfinding throughout the new and existing buildings, creating a streamlined solution to navigating such a large, state-of-art facility.

Once opened, the new clinical services building will become known as Building A and current Building C will be demolished in the future, seeing the current Building A renamed Building C.

There will be a transition period during the move where we'll have duplicate building names in operation. We will keep you posted on how that will be managed closer to the date.

Check out the images above and below to understand A BIG CHANGE that's occurring and just know that A B C is as easy as 1 2 3 (apologies for the ear worm).
