

# MOVE

## MOVES START IN MAY

With just over two months to go, it's time to plan those declutter days and get prepared for the move into the new clinical services building.

To help make the transition as smooth as possible, we have a 12-week move plan in place. The staged opening of the new building will see services such as security, concierge, parking and admissions move within the first fortnight, with our fabulous volunteers, the demand unit and CSSD to soon follow.

Each department has a super user who is working closely with the redevelopment team to ensure the teams are ready for MOVE day. Stay tuned for the super user announcement, coming soon.

## PLAYFUL ARTWORK NOW INSTALLED

Senior project manager, Miles Hersey has been having some fun on site with the latest wall art install for the Children's Unit.

Similar to a game of hide and seek, children will be able to spot common wombats, sugar glider possums, blue tiger butterflies and more. Brightening the space, the playful illustrations will provide comfort, delight and interest to patients and families, many of whom spend long periods of time in the hospital.

# 62 DAYS TO GO!

## WE'RE ALL CONNECTED

A series of link bridges have been constructed to connect the new clinical services building to the existing hospital. Check out the above photo to see the future building officially 'holding hands' with Building A and B.

Access to the new main entrance will be through these corridors that will be revealed once the hoarding is removed near the visitor lifts on Ground Floor and Level 1 in Building A.

## STAFF ONLY WEBSITE PAGE

We've made a special staff only website page for you to keep across the MOVE. Find out about upcoming events, see who your key contacts are, and get an update of what's happening on site. Click [here](#) to check it out now.

We want to document your MOVE and share your stories. Send stories, photos, funny decluttering finds, and more to our communications and engagement officer, Morgan Tallack at [morgan.tallack@health.nsw.gov.au](mailto:morgan.tallack@health.nsw.gov.au).

## REDtalk

Join us for our next online REDtalk at 11am on Thursday 24 March, and get prepared for the upcoming campus changes. Learn more about our 12-week move plan, hear about the building name changes and see how the new naming convention will help streamline wayfinding. Click [here](#) to register now.

Watch our previous REDtalks [here](#) on the intranet.
