

MOVE

Rodney O'Donnell and Rizwan Rahiman with the keys at the new main entrance

SAY CHEESE, YOU'VE GOT THE KEYS!

On Friday 27 May, Campbelltown Hospital was officially handed the keys to the new building, marking the start of the 12-week move plan. Security are the first cab off the rank, making the move to their new space on Wednesday 1 June.

For swipe access, ID services, lost property enquiries and access to keys, you can find them in their new space by following the external pedestrian pathway from the Emergency Department towards the P2 car park.

Enter the new building via the staff only access point to sign-in to the redevelopment Command Centre and a redevelopment team member will show you through to the Security window in the new main entrance on Level 2.

From Monday 6 June, the hoarding outside Building A lifts 6 and 7 will be removed, allowing a more direct path of travel through to the new building.

COMMUNITY TOURS

Our **community open day** will be held this Saturday 4 June. A chance for the community to get a behind-the-scenes tour of the new building before it opens to the public, it's a great opportunity for your family and friends to check out your new work space.

MILESTONE MOMENTS

Construction completion for the new building was announced on Thursday 26 May by NSW Premier Dominic Perrottet, Health Minister Brad Hazzard, Member for Holsworthy Melanie Gibbons and Member for Camden Peter Sidgreaves, who also took a short tour of our future Emergency Department space. [Read more.](#)

It's exciting times ahead, with the new hospital main entrance on Level 2 and the P3 car park set to become operational from Monday 6 June. The new Emergency Department will move on Wednesday 29 June, as part of a full schedule of service moves.

LET THE MOVES BEGIN!

Security is moving on Wednesday 1 June.

SUPPORTING YOU IN STYLE

Just like our team mascot Jerry, the redevelopment team have become quite stylish with our very own uniform. Strutting our stuff in navy polos with 'REDEVELOPMENT TEAM' labelled on the back, it will help you identify who's who throughout the next few months of moves. Feel free to approach us with any questions or queries, we promise we don't bite!

LYREBIRD FEATHER ARTWORK INSTALL

A three metre lyrebird feather sculpture has been installed in the new main entrance. Created by artist Nicole Monks, the sculpture will be accompanied by a larger six metre feather to adorn the Hospital Street staircase. If you're passing through the link bridge to the GMU on Tuesday 31 May, take a peek through the window to try and catch the installation.
